To the Most Reverend John L. May

Dear Bishop May:

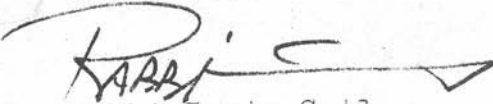

We of Congregation Ahavas Chesed wish to acknowledge your sincere concern and respect for the Jewish community.

In recognition of your efforts, in helping to alleviate the problems we encounter in the community, better understanding of peoplehood and making the entire community aware of their Jewish roots, in your honor we of Congregation Ahavas Chesed have planted a garden of trees in Galilee region in Israel in the forest designated as the State of Alabama. The garden consists of 100 trees and is recorded in the Jewish National office in Jerusalem.

This will forever testify to your concern in the land of our heritages.

God bless you in your future endeavours.

Sincerely,

Rabbi Irwin Cutler
